ACT Course Descriptions

ACT Blitz

The **ACT Blitz** is a two session overview designed to orient students to the layout, subject matter and time constraints of this test. The classes will cover how the test is administered, which subject categories and sub-categories appear on the test, and how the rigorous time limits affect test-taking strategies. The classes will also afford an opportunity to take entire sections of the test under timed conditions. The ACT course covers all sections of the test: English, Reading, Math and Science.

ACT Blast

The **ACT Blast** is an intensive four session review that goes into more detail than the Blitz. The classes will identify and target portions of the test that will provide students the greatest opportunity for improvement. It will cover content, strategies, and time management to help students reach their best scores. During the Blast, students will also have the opportunity to take a fully-timed exam, as well as several portions of other exams.
